

**Jane says:**

*Listen to the music*

The big day has finally come  
All those months of planning almost over

You have carefully selected your favourite music  
You are imagining yourself coming down the aisle  
You get excited just thinking about it

*This is not a dress rehearsal*

This is IT  
THIS IS YOUR MOMENT

You want to savour every second of this precious day  
You want to stretch out every minute  
You want to etch it in your memory forever

You want to LISTEN to your music  
You want to HEAR your music

**simplifying your life**

**less is more**

BUT YOUR BRAIN WON'T LET YOU

YOUR BRAIN WON'T TURN OFF

You're still worrying about all the little things that could go wrong  
You're still thinking about details, details and more details  
You've planned this day all by yourself but....  
You're anxious and stressed

**All of this can easily be avoided by making a simple wise decision.**

**Call me.**

**I will take care of you, your family, your guests, the vendors and all those pesky little details that still have to be taken care of to make your day perfect and problem free.**

My **Lilies** package will let you sleep, be rested, anxious free and relaxed since I will take care of all those details on your special day so you can **listen to the music and enjoy the moment.**

Looking forward to hearing from you,

*Jane*

**simplifying your life**

**less is more**
